

Possumwood Acres Wildlife Sanctuary

Greetings from Possumwood Acres,

We are excited that you have indicated that you are interested in Possumwood Acres Wildlife Sanctuary! We are happy to have you as a potential team member and hope that you will volunteer your services with our organization.

As the full title implies, we are an organization devoted to the rescue and healing of sick, injured and/or orphaned wildlife. We take pride in the care we give to our animals and are always delighted when they can be released back into their natural environment.

Please call to arrange for a guided tour of our facility. A seasoned volunteer will be happy to guide you and explain the necessary activities that are performed daily. If, at the end of the tour, you discover that you would like to become a team member, let us know and we will explain the duties expected of you as a volunteer.

For your own protection, you must have a current tetanus shot prior to beginning any work on the premises and always dress appropriately (closed toe shoes and clothing suitable for working in dirty conditions). Our volunteer hours are flexible and are established at three-hour shifts. All shifts, any day of the week, contain many new and exciting things to learn. If you sign up for a dedicated time period, we will expect you to honor that commitment and to give as much notice as possible if you have a conflict or illness and won't be able to come at that time.

Please read, copy and fill out the attached documents prior to coming out to work. Bring them along with proof of your tetanus booster. Again, thank you for your interest and we look forward to seeing you soon.

Sincerely,

Alice Sanders
